August - October	District applies for TRF block grant for review, funds are distributed to clubs
June 15, 2027	2026-27 District Grant Final Reports due - Submit in DACDB Grant module

ELIGIBILITY REQUIREMENTS

Club is in good standing with Rotary International. Club signs MOU with their grant application. All D7680 Rotary clubs are encouraged to apply for district grants. Rotaract clubs may apply.

Project(s) comply with Rotary requirements in RI/TRF Terms & Conditions for District Grants.

Club participates in D7680 Grants Training (at least 1 member per club, preferably more). Ideally, participants include the person(s) submitting the grant & leading the project for all clubs involved.

IMPORTANT INFORMATION FOR CLUBS

Clubs whose giving to The Rotary Foundation (TRF) Annual (SHARE) Fund averages \$100+ per member (per-capita average) receive priority consideration. Refer to Club Fundraising Analysis (MyRotary.org) for 2025-26 giving for 2026-27 grants. If a club hasn't met this, they may apply for a grant, understanding funds may be limited. Club collaborations and partnerships are encouraged.

As a guideline, eligible clubs with an eligible project who meet at least \$100/member average giving to TRF Annual Fund in the year before may receive grant(s) of 25% of their Annual Fund giving 3 years prior (in 2023-24 for 2026-27 grants). Clubs may apply for multiple projects toward this total. Funding beyond 25% depends on available funds and number of applications received.

District grant projects are required to have some kind of active / direct Rotarian involvement. District grants cannot be used for fundraising activities. District grants must be used for a specific project and cannot be used for general administrative or operating support of another organization.

Clubs are responsible to match district grant funds. A district grant cannot be more than the club contribution (which may be from 1 or more clubs and/or include community / outside funds). Total project budget can be more than the grant plus match if there are added club or other funds.

Clubs must have completed prior year district grant project(s) and submitted required reports. Clubs must comply with financial reporting requirements, including receipts for all grant expenses.

Clubs can begin projects and start to spend funds only after receiving approval from District Grant Subcommittee. Clubs receive grant funds after RI/TRF approves the district's “block grant”.

Grant funds are to be used as approved in the application. If there are proposed changes in the project or spending plan, timely communication is expected with the District Grant Subcommittee for review / direction. Any district grant funds that are not used must be returned to the district.
